

HOUSING SENIORS | CREATING HOPE | PILOTING CHANGE

## Tax Credit Apartment Buildings in Multnomah County

The Low-Income Housing Tax Credit (LIHTC) program creates affordable apartments with lower-than-market rents by offering tax incentives to the property owners. Properties may contain a mixture of market rate units that are not financially assisted and units with reduced rent. This list contains tax credit apartment buildings in Multnomah County which range in size from SRO (single room occupancy) to 2 bedrooms.

Rents are based on area median incomes (AMI). The rent prices may vary for the same sized unit in the same building depending on the level of tax credits. The most common tax credit properties are designed to be affordable to people as follows:

- 30% tax credit units are typically affordable to a single-person household with income of \$950 - \$1425/month
- 60% tax credit units are typically affordable to a single-person household with income of \$1900 - \$2850/month
- 80% tax credit units are typically affordable to a single-person household with income of \$2533 - \$3800/month

To qualify, a household must meet the income guidelines for the specific units. Some tax credit properties have additional guidelines based on age. Contact the apartments directly for more information regarding applications, waitlists, and eligibility guidelines.

The apartments on this listing have occupancy standards. This means that there is a maximum number of people allowed based on the size of the unit. If you have questions regarding occupancy standards, you can review the screening criteria for the property or contact the property manager for more information.

We update this information regularly, but rent prices can change frequently. Contact the property directly for the most current rental prices.
