

Apartments with Subsidized Rent for People Under 62 without Disabilities

The apartments on this list are subsidized with project-based vouchers. Residents pay approximately 30% of their income in rent at these properties. In addition, these properties do have income guidelines. Most require that income is less than 30% MFI (no more than \$2,245/month for a single individual) or 50% MFI (no more than \$3,745/month for a single individual). All of these buildings rent to seniors 55 and over unless otherwise noted and do not require applicants to be disabled. Some buildings have a mixture of units -- some with subsidies where residents pay rent based on their income, and some with a set monthly rent.

Some apartments may have specific criteria or eligibility, so make sure you understand the type of housing you are applying for before you submit your application. Waitlist openings and closings change frequently, so we recommend contacting the properties directly and or visiting the websites for the particular property you are interested in. Often these will have updated vacancy and waitlist information.
